

Help Us Be Good Neighbours - Avoiding Parking and Driving Violations on 53rd Street

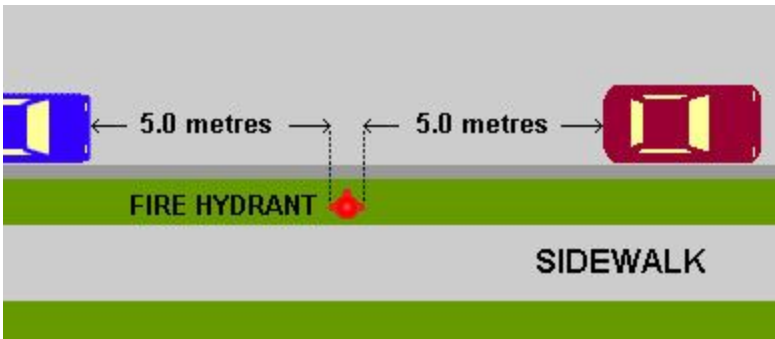

The bylaws enforcement officer dropped by the school the other day and wanted us to be mindful of a few areas where they have observed traffic infractions. We have been warned that officers will be dropping by at pick-up and drop-off times to ticket between now and the end of the school year. We want to make sure none of our families get a ticket. Our highest priority though is student safety. Thank you for helping us do our part as good neighbours in the community.

The areas that were identified by bylaws enforcement officers:

- 1) Parking in front of the painted yellow curb. Parking is prohibited in all sections with painted yellow curbs. There are a few stretches along 53rd Street to be aware of.

- 2) Parking in front of the fire hydrant is a violation at all times. Please observe restrictions as stated on the sign.

- 3) Vehicles parking and driving into Sunningdale Estates. Please refrain from pulling into this neighbouring apartment complex for any reason, including u-turns. We have received a number of complaints from their management over the years. This is private property.

- 4) Vehicles parking near or in front of the driveways. Please leave at least 1.5 m in distance. On occasion, vehicles have parked directly in front/at the edge of the driveway, impeding vehicles from entering into the kiss & go.

- 5) Jaywalking on 53rd Street. We are encouraging parents and students to use the designated light-controlled crossing at the intersection of Ladner Trunk Road when crossing 53rd Street. The school has received calls from concerned neighbours who have witnessed some close calls with parents and students jaywalking.
